Toxic Substances Control Division
Attn: D. Cox
2151 Berkeley Way, Annex 7
Berkeley, CA 94704

Dear Mr. Cox:

As requested by this Command and as discussed in a phone conversation with Mr. Don Cox of your staff on June 12, 1987, a meeting has been set for 10:00 a.m., June 19, 1987 at the Environmental Protection Agency (EPA), Region IX, to discuss with representatives of the Regional Water Quality Control Board, the Department of Health Services, and the EPA, the Navy's remedial investigation planned for the Naval Air Station (NAS), Alameda. At this meeting, our consultant will present a preliminary workplan for the sites currently under investigation at NAS Alameda. At that time, we would be very much interested in hearing any comments or concerns you may have regarding our investigation at NAS Alameda.

Should you have any questions regarding this matter, the point of contact is Commander, Western Division, Naval Facilities Engineering Command (Attn: Louise Lew, Code 1142E, (415) 877-7497).

Sincerely,

Alex E. Dong
Head, West Central Environmental Section
